

Gauge Cock (GC)

Pressure gauge cocks isolate the pressure gauge from the pressure media in order to enable inspection or replacement of the gauge where the pressure is continuously pulsating.

These gauge cock can be used to isolate the gauge from process or to bypass the process for gauge maintenance.

Special Features

Variety of process connections

Variety of sizes to suit the application

Different options to suit technical requirements

Industrial Applications

Petroleum industries

Thermal / nuclear / hydro-power stations

Iron and steel industries

Steam boilers, steam traps etc.

Chemical process industries

Mounting Options

Three way (F x F x F)

Two way (M x F)

Three way (F x F x M)

Two way (F x F)
